Community Decision-Making

Do we as the Community Data Collaborative want to:

- **Invest further in a partnership with the Urban Institute** to develop an online data platform;

- **Contract with another national partner** (instead of the Urban Institute) to continue developing an online data platform;

- **Create a locally grown** online data platform without a national partner;

- **Defer decision-making** to allow for enough time to see how the preliminary online data platform developed in partnership with the Urban Institute "comes to life" and gets used by people throughout Sarasota County; OR

- **Cease efforts altogether** with regard to the development of the Community Data Collaborative and corresponding online data platform.

Online Community Data Platform

http://nccsweb.urban.org/communityplatform/sarasota

Local Coordination of the
# Online Community Data Platform

Duties:
- Help to convert & organize local data by neighborhoods
- Send local data to Urban Institute
- Maintain communication channel between Collaborative & Urban Institute

Local Coordination of the
Online Community Data Platform

Criteria:
- Relevant Expertise
- Availability
- Philosophy
- Theory of Community Change

Philosophy of Open Data

"Open"
Public
- Interactive
- Influential
- Inclusive

Engaged
- Transparent
- Participatory
- Collaborative

Less formal
- Accessible
- Connected
- Horizontal

Inflection point:
Government 2.0

More formal
- Rules
- Controlled
- Vertical

Detached
- Limited, (need-to-know)
- Opaque
- Standalone

Proprietary
- Secret
- Locked
- Exclusive

"Closed"

Figure 1: The patterns of behavior and underlying principles span a range of styles of public administration.

Resident-Centric Orientation

- Residents as primary decision-makers and active change agents to bring about community well-being

vs.

- Professionals / Institutions as primary decision-makers and active change agents to bring about community well-being

Facilitation of the
Community Data Collaborative

Duties:
- Prepare agendas
- Maintain record of participants
- Maintain minutes / meeting notes
- Send out correspondence to Collaborative members
- Facilitate group process / communication

Final Announcements
